

June 1 2021:

COVID Policies at Landmark Learning (LL) Campuses

*Sponsor sites may have greater or lesser requirements than what we are supporting at home. For all courses, faculty will guide the students to behave in the more rigorous practices while in class. Follow your faculty's instructions and direction as the final authority on practices during your course.

Health Screen:

- S/S check, daily before class each morning. Temp check if S/S present.
- Post course, please alert the LL office of any onset of COVID-like symptoms or positive COVID test within 14 days of your end course date.

Bunkhouses (Nook and Village):

- Must provide COVID vaccination record to secure bunkhouse reservations.
- Expect 1-3 vaccinated roommates.

NOLS:

- Courses longer than 3 days, negative COVID test result OR full vaccination record required for course entry. Full vaccination is 14 days after your last vaccine dose (1 for J&J, 2 for Pfizer/Moderna)
- COVID test must be no more than 5 days before course start date.
- KN-95 minimum mask. Provided if students don't arrive with their own.
- Masks mandatory indoors and during any scenario/workshop/close contact indoors or outdoors.
- Scenarios require masks, goggles, gloves and be held outdoors if the environment allows.

ACA, LNT, NCOEMS, SAI, etc:

- COVID vaccination record preferred (*EMT student exposure on ambulances and ERs, etc)
- If we achieve 100% vaccination among all students/faculty in a course = No masks required indoors or outdoors, unless directed by faculty.
- < 100% vaccination = Masks required indoors, No masks required outdoors w/ distance, unless directed by faculty.
- Personal masks allowed or KN-95s distributed if students don't arrive with their own.
